

Monthly Safety Tip for **January**:

Riding Season is just around the corner. Now is the perfect time to schedule your Bike maintenance with Destination Harley or your favorite mechanic of choice. Refer to your Service Manual for what may need to be done for your bike before we get in to full swing of riding. Remember the closer we get to nice weather the busier the Service Departments get.

Does everyone remember what you should do to your bike before each ride?

Well?... I am waiting....

That's what I thought. Does everyone remember their Group Riding Class?

Yep, That's what I thought as well... (maybe you should take it again for a refresher)

Does the acronym **T-CLOCS** sound familiar?

That is why I have attached a link to a copy here for you. **Tires & Wheels – Controls – Lights – Oil – Chassis.**

T-CLOCKS FORM

Print this out and use it as a check list of “things to do” before you leave your house for a ride.

A perfect time to go over the **T-CLOCS** check list is when you are washing your bike.

Attached here is also a short video of performing a quick version of **T-CLOCS**

I hope this Safety Tip was of some use. Keep checking back for updates or next month's Safety Tips.

As always,

See you in my rear view.
